SPRINGER NATURE

Ведущие бренды нашего издательства

			
<p>Established in 1842 and a leading global scientific, technical and medical publisher, providing researchers in academia, scientific institutions and corporate R&D departments with quality content via innovative information products and services. Springer has one of the most significant STM eBook collections and archives, as well as a comprehensive portfolio of open access journals.</p>	<p>Founded in 1869, <i>Nature</i> is the world's most cited scientific journal, with over half a million citations a year. It is the number one multidisciplinary science journal globally with an Impact Factor of 41.456. <i>Nature</i> reaches millions of scientists and students at 4000 institutions worldwide, each month 3.5 million unique users view more than 8 million pages on <i>Nature's</i> website.</p>	<p>Macmillan Education is the third largest global provider of English language publishing in the world, a local K12 publisher and through Palgrave, a publisher and distributor of renowned higher education titles. Together they serve customers in 50 markets and supply high-quality content and innovative digital products and services to customers in 120 countries around the world.</p>	
			
<p>The largest open access publisher in the world, publishing over 286 peer reviewed open access journals across the fields of biology, biomedicine and medicine. With over 1.8 million registrants, BioMed Central can provide targeting opportunities across a range of specialities, job titles and disciplines.</p>	<p>A technical publisher devoted to meeting the needs of those in the information technology field. With more than 1,500 books in print and e-formats, Apress is the authoritative source for IT professionals, software developers, programmers and business leaders around the world.</p>	<p>Founded in 1845, <i>Scientific American</i> is the oldest continuously published magazine in the U.S. and the leading source and authority for science, technology information and policy for a general audience. The print edition is read by 3.5 million worldwide consumers and ScientificAmerican.com has an average of 5.5 million views every month.</p>	<p>A global academic and business publisher for the Humanities and Social Sciences (HSS). Palgrave Macmillan is the first boundary-free HSS publisher - working at all lengths and across all business models. It offers readers and authors a single source for the best in professional learning and scholarship.</p>

На наших сайтах вы сможете:

- 1.** Читать и скачивать все статьи, книги о самых новых достижениях в вашем направлении исследований.
- 2.** Использовать наши материалы при написании отчётов НИР, магистерских и докторских диссертаций, подбирать статьи для сопоставительного анализа передовых достижений в отрасли.
- 3.** Быстро и точно определять рейтинговые журналы под ваши темы исследования. Сразу же на сайте журнала узнавать есть ли у этих журналов импакт-фактор и есть ли они в Scopus.
- 4.** Ознакомиться с инструкциями и требованиями и подать вашу статью для публикации.
- 5.** Открывать и предоставлять дистанционный доступ вашим студентам, магистрантам, докторантам и преподавателям к полнотекстовой базе из дома, либо с сотовых телефонов.
- 6.** Использовать книги и главы как связанный курс учебных материалов

Требования министерств к ученым для публикации статей

1

- Список журналов издающихся внутри страны, одобренных министерствами для публикаций

2

- Список журналов, индексируемых в Clarivate Analytics (Thomson Reuters) и имеющих импакт-фактор (входят около 14 000 научных журналов)

3

- Список журналов, индексируемых в Scopus (входят около 21 000 научных журналов)

Springer Nature журналы, преимущества и позиции в рейтингах

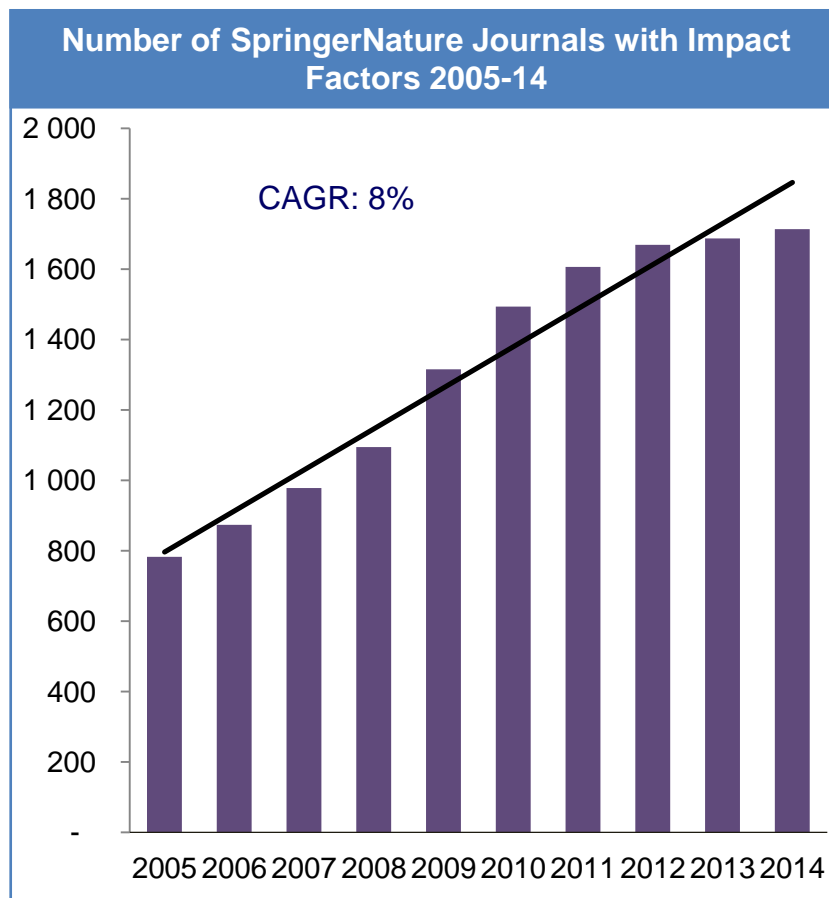

- В 2017 году согласно Journal Citation Reports у издательства Springer Nature **импакт-фактор получили 1,800 журналов.**
- В Scopus индексируется **2454 журнала Springer Nature**

Журналы SpringerNature согласно JCR лидируют по многим научным сферам:

28 категорий по которым наши журналы лидирующие в рейтингах

79 категорий в которых журналы SpringerNature входят в топ 3 рейтингов

155 журналов, которые входят в топ 1\4 рейтингов

Original research article

International Journal of Politics, Culture, and Society

Aims & Scope

The International Journal of Politics, Culture and Society welcomes original articles on issues arising at the intersection of nations, states, civil societies, and global institutions and processes. The editors are particularly interested in article manuscripts dealing with changing patterns in world economic and political institutions; analysis of ethnic groups, social classes, religions, personal networks, and special interests; changes in mass culture, propaganda, and technologies of communication and their social effects; and the impact of social transformations on the changing order of public and private life. The journal is interdisciplinary in orientation and international in scope, and is not tethered to particular theoretical or research traditions. The journal presents material of varying length, from research notes to article-length monographs.

Quantitative Marketing and Economics

QME

ISSN: 1570-7156 (Print) 1573-711X (Online)

Description

Quantitative Marketing and Economics (QME) publishes research in the area of Marketing, Economics and Statistics. Our focus is on important applications of quantitative methods to marketing using a quantitative approach. We define marketing broadly as the interface between firms, competitors and consumers. This includes but is not limited to consumer demand and decision making, strategic in ... [show all](#)

1.3 Информация о журнале: Как узнать где ещё индексируется журнал, есть ли у него Scopus?

The image shows a browser window with several tabs. The active tab is titled "http://link-int.springer.com". The page content includes a description of the journal's focus on environmental issues and policy, followed by a list of related subjects. A red circle highlights the "ABSTRACTED/INDEXED IN" section, and a red arrow points to it from the text above.

inger.com/economics/environmental/journal/10640

theory and methods to environmental issues and problems that require detailed analysis in order to improve management strategies. The contemporary environmental debate is in a constant state of flux, with new or relatively unexplored topics continually emerging. The Journal provides a forum for the further exploration of causes, consequences and policy responses linked to these topics, across a range of spatial and temporal scales up to the global dimension. Areas of particular interest include evaluation and development of instruments of environmental policy; cost-benefit and cost effectiveness analysis; sectoral environmental policy impact analysis; modeling and simulation; institutional arrangements; resource pricing and the valuation of environmental goods; and indicators of environmental quality.

The contents are chosen for their relevance to the process of policy formulation and application.

Instructions for Authors

Editorial procedure

Double-blind peer review

This journal follows a double-blind reviewing procedure. Authors are therefore requested to submit two documents at the time of their submission:

► A title page only, which includes:

- A concise and informative title
- The name(s) of the author(s)
- The affiliation(s) and address(es) of the author(s)
- The e-mail address and fax number of the corresponding author

► A blinded manuscript without any author names and affiliations. Authors should avoid language that could identify themselves as the authors. Authors should properly cite and reference their own work, but should not use phrases such as "in our previous work (Smith, 2011), we presented..." which identifies the author. Such work should be referred to in the third person, e.g., "Previously Smith (Smith, 2011) presented..."

The blinded manuscript should contain:

- A concise and informative title
- Abstract: Please provide an abstract of 150 to 250 words. The abstract should not contain any undefined abbreviations or unspecified references.
- Keywords: Please provide 4 to 6 keywords which can be used for indexing purposes.

The screenshot shows the SpringerLink interface for the journal 'Quantitative Marketing and Economics'. The page includes a search bar at the top, a navigation bar with 'Browse Volumes & Issues', and a main content area with statistics (13 Volumes, 49 Issues, 187 Articles, 12 Open Access, 2003-2015 available), a search box for volumes/issues, a 'Browse all Content' section with 'Browse Volumes & Issues' and 'View Open Access Articles' buttons, a 'Latest Articles' section with two article listings, and a 'Share' section with social media icons. Six orange callout boxes labeled 'Шаг 1' through 'Шаг 6' point to specific elements: 'Шаг 1' points to the journal title and statistics; 'Шаг 2' points to the 'Find your Volume or Issue' search box; 'Шаг 3' points to the 'Browse Volumes & Issues' button; 'Шаг 4' points to the 'Share' section; 'Шаг 5' points to the 'View Open Access Articles' button; and 'Шаг 6' points to the first article listing.

Процесс подготовки статьи

Структура статъи

Title	Read first and most. Keep it short and to the point. Must reflect the content of the paper.
Authors	Correct spelling, consistency in affiliation.
Abstract	75-250 word summary of objective and results. Includes key message of paper.
Keywords	Synonyms relevant as search terms e.g. in Google. Ideally not words from title because title words are automatically keywords.
Introduction	Explain i) why the work was conducted ii) what methodology was employed iii) why you chose this particular methodology iv) How the methodology accomplished the hypothesis set out in your abstract.
Methodology	Written clearly and concisely so that someone can follow what you did.

Структура статъи

Analysis/Results	Present the results clearly and carefully.
Discussion	Discuss the results here. If the results were not what you were expecting this is where you can provide insights or speculations as to what happened and/or what you could have done differently.
Conclusions	Write down your conclusions from the study.
Acknowledgements	Acknowledge the people and institutions who have made your research possible e.g. funding.
References	Properly cite your referenced material; use the style of the journal.
Supplementary Material	List any supplementary materials, appendices.

Title

Abstract

Write last

Название должно привлечь внимание читателя

Важные моменты

- ✓ Краткое изложение ключевых выводов
- ✓ Содержит ключевые слова
- ✓ Менее 20 слов

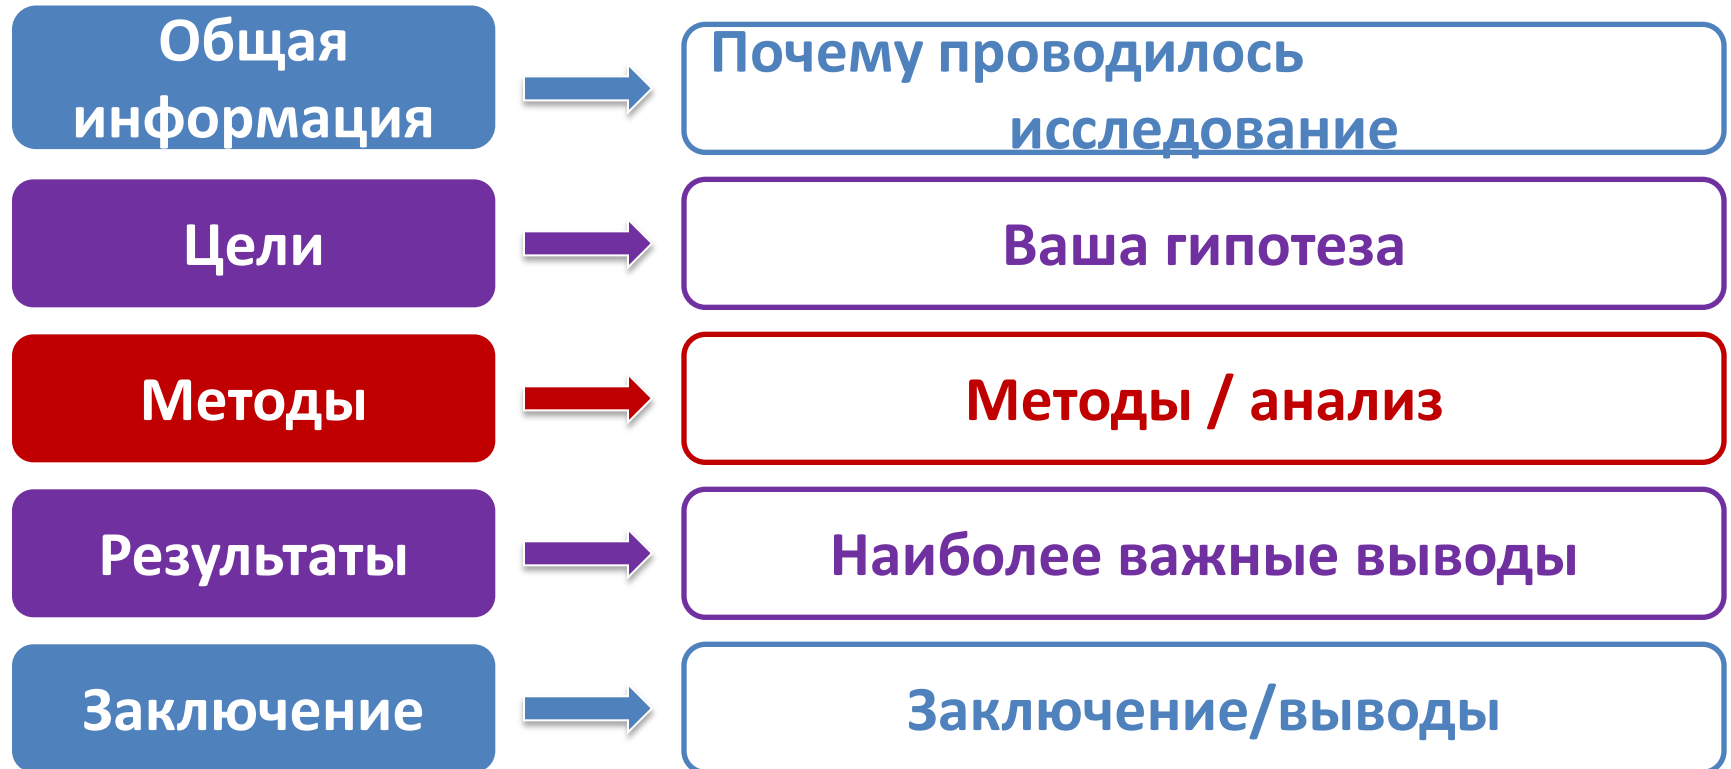

Избегайте

- × Вопросы
- × Описание методов
- × Аббревиатуры
- × “Новый” или “ранее не существовавший”

Название должно быть кратким резюме наиболее важных выводов

Аннотация

Краткое изложение вашей работы

Структура аннотации

Numerous systemic treatment options exist for patients with mycosis fungoides (MF)

Почему ваше исследование необходимо

the comparative efficacy of these treatments is a retrospective analysis of our cutaneous lymphoma database to evaluate the treatment efficacy of 198

Что вы сделали

therapies. The primary end point was time to next treatment (TTNT). Patients with advanced-stage disease made up 53%. The median follow-up time from diagnosis for all alive patients was 4.9 years (range 0.3–39.6), with a median survival of 11.4 years. Patients received a median of 3 lines of therapy (range 1–13), resulting in 709 treatment episodes. Twenty-eight treatment modalities were analyzed. We found that the median TTNT for single- or multiagent chemotherapy was only 3.9 months (95%confidence interval [CI] 3.2–5.1), with few durable remissions. α -interferon gave a median TTNT of 8

Что вы узнали

and histone deacetylase inhibitors (HDACi) gave a median TTNT of 10 months (95% CI 4.0–6.1). When compared directly with chemotherapy, interferon and HDACi both had greater TTNT ($P < .00001$ and $P = .01$, respectively). In conclusion, this study confirms that all chemotherapy regimens assessed have very modest efficacy; we recommend their use be restricted until other options are exhausted.

Какой вклад внесет ваше исследование в сферу

Улучшить читаемость текста

Используйте короткие предложения

Ограничить количество слов в предложении до 15-20
слов

Одна идея в предложении

Используйте активный залог

Какое предложение проще для восприятия?

Пассивный залог:

The models comparing the economic growth and diversification of the Middle East and East Asia were evaluated.

Активный залог:

We evaluated the models comparing the economic growth and diversification of the Middle East and East Asia.

Структура предложения

В каком предложении говорится о том, что вы получите повышение?

1. Вы заслуживаете повышения заработной платы, но бюджет ограничен
2. Бюджет ограничен, **но вы заслуживаете повышения заработной платы.**

Акцентируйте

*Ключевая информация располагается **в конце предложения**. Читатели в больше степени обратят на нее внимание.*

Редакционный процесс

Что хотят видеть редакторы?

**Высокое качество
исследования**

**Увеличение
влияния**

**Original and
novel research**

Useful for the field

**Well-designed study
Transparent reporting**

Well-written manuscript

**Interesting to
journal's readership**

Этика научных публикаций

Do not
plagiarize

Do not fabricate
or falsify data

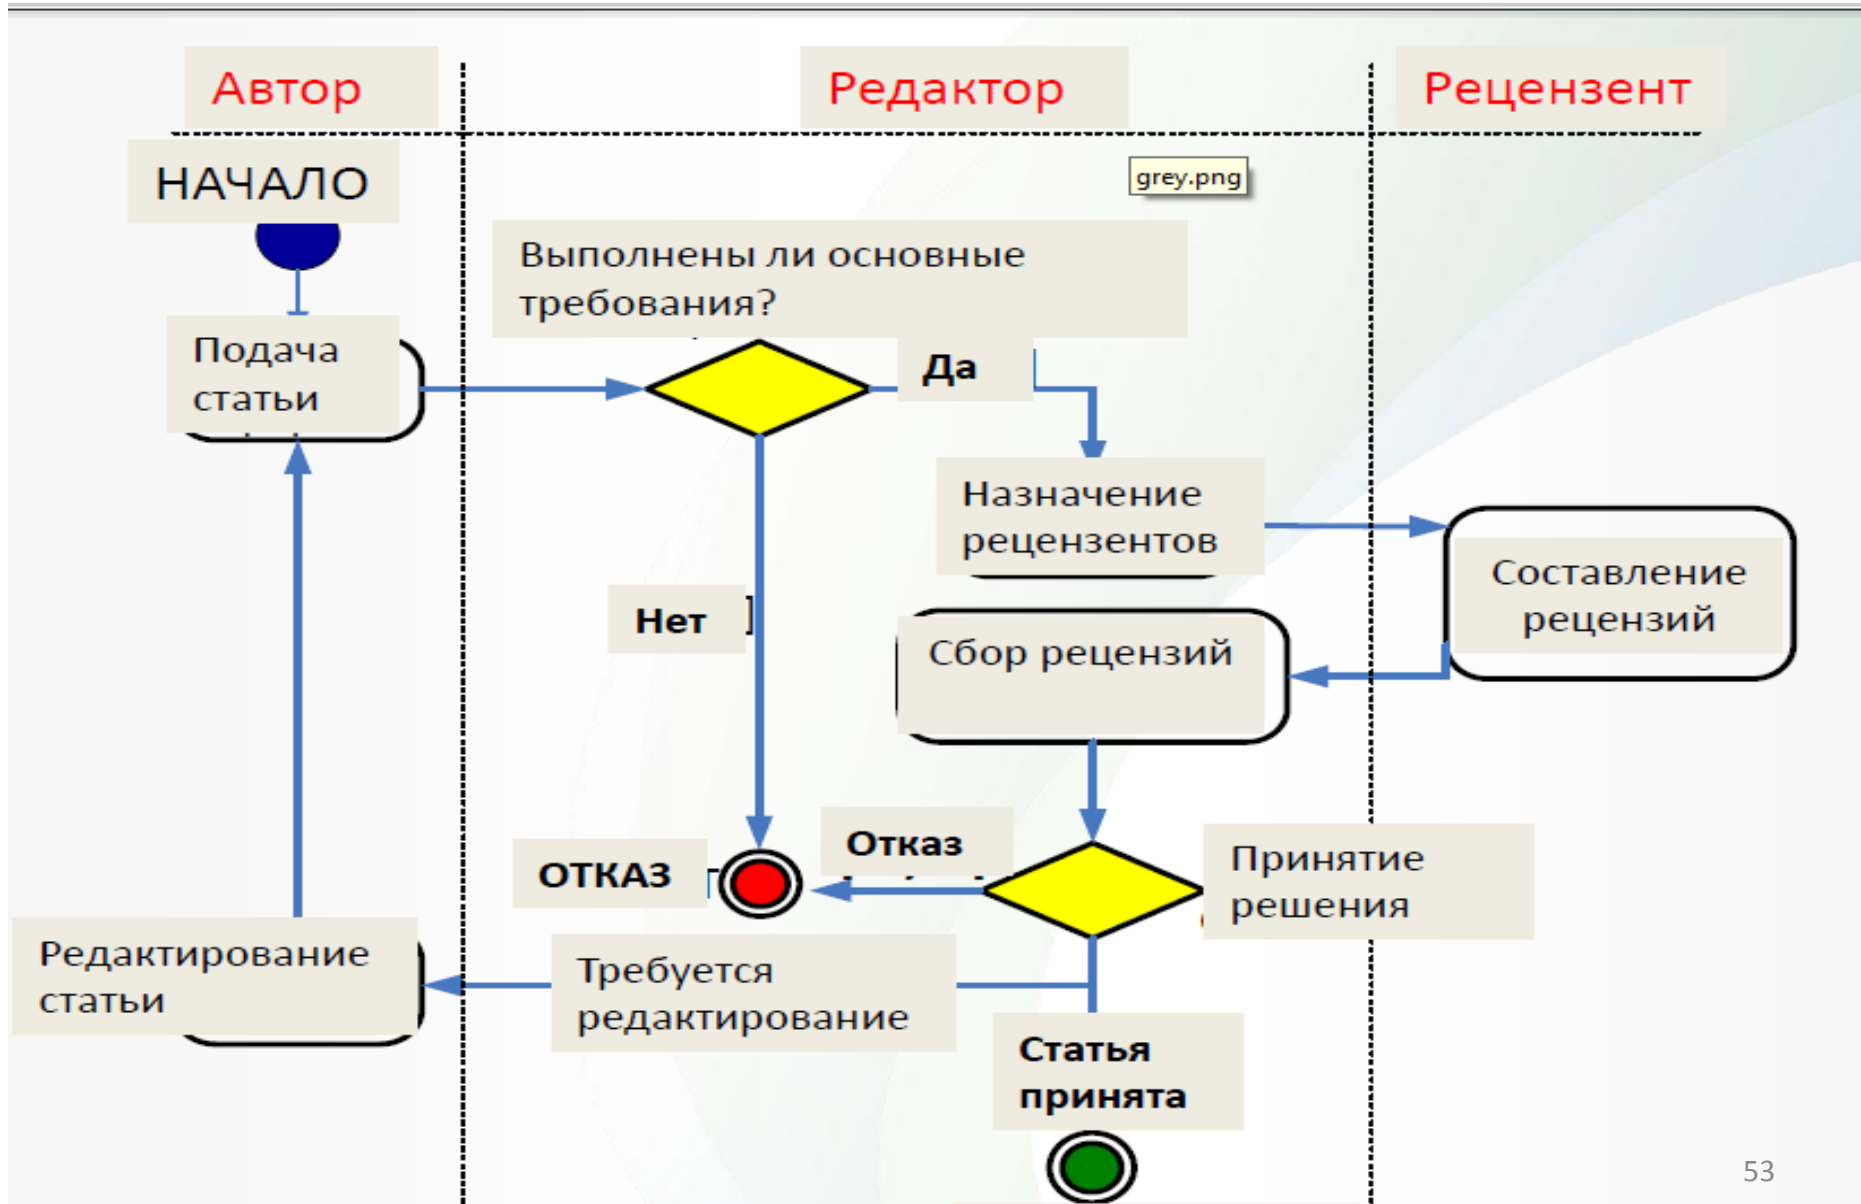

Authorship:

- ✓ Study design, data analysis
- ✓ Writing the manuscript
- ✓ Final approval (responsible)

Declare conflicts of interest:

- ✓ Financial
- ✓ Personal

Редакционный процесс: экспертиза материала

Шаг 1. Отбор редактором по первичным признакам

Направление статьи:
соответствует ли статья
тематике издания?

Формат статьи: полная
статья, обзор, труд
конференции?

**Передача статьи в
родственный журнал?**

**Изменение формата
статьи?**

Необходимо быть твердо уверенным в направлении выбранного журнала

Шаг 2. Углубленный анализ статьи редактором

Отличие от предыдущих исследований?

Интересна ли статья для исследователей в данном направлении?

Новизна:
достаточна ли?

Интересна ли статья для остальных читателей?

Количество публикуемых статей по всему миру растёт с каждым годом, конкуренция за место в журналах огромная.

Шаг 2. Углубленный анализ статьи редактором. На что редактор обращает внимания?

»In conclusion, we have synthesised a novel class of multifunctional nanoparticles which are capable of significantly increasing the photoconversion efficiency of flexible solar cells ...«

Conclusions section of manuscript

Keyword1 nanotechnology
Keyword2 gold nanorods
Keyword3 cancer therapy
Keyword4 medical imaging
Keyword5 liposomes
Keyword6 micelles

Согласие с рецензентом

Комментарии рецензента: In your analysis of the data you have chosen to use a somewhat obscure fitting function (regression). In my opinion, a simple Gaussian function would have sufficed. Moreover, the results would be more instructive and easier to compare to previous results.

Согласие

Ответ: We agree with the reviewer's assessment of the analysis.

Почему вы согласны и какие изменения вы сделали?

Согласие с рецензентом

Комментарий рецензента: In your analysis of the data you have chosen to use a somewhat obscure fitting function (regression). In my opinion, a simple Gaussian function would have sufficed. Moreover, the results would be more instructive and easier to compare to previous results.

Согласие

Ответ: We agree with the reviewer's assessment of the analysis. Our tailored function form, makes it difficult to tell that this measurement constitutes a significant improvement over previously reported values. We describe our new analysis using a Gaussian fitting in our revised Results section (Page 6, Lines 12–18)

Несогласие с рецензентами

Как делать нельзя:

Комментарий рецензента: In your analysis of the data you have chosen to use a somewhat obscure fitting function (regression). In my opinion, a simple Gaussian function would have sufficed. Moreover, the results would be more instructive and easier to compare to previous results.

Ответ: It is clear that this reviewer is not familiar with the current analytical methods in the field. I recommend that you identify a more suitable reviewer for my manuscript.

Несогласие с рецензентами допустимо в вежливой форме:

Комментарий рецензентов: In your analysis of the data you have chosen to use a somewhat obscure fitting function (regression). In my opinion, a simple Gaussian function would have sufficed. Moreover, the results would be more instructive and easier to compare to previous results.

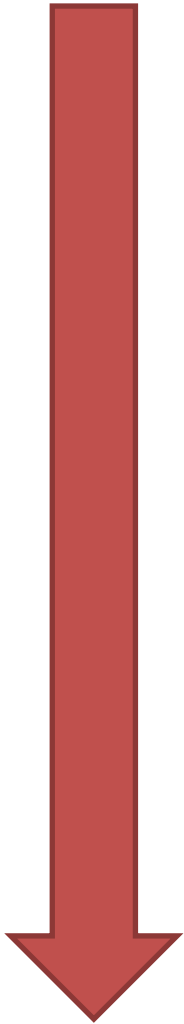

O **Доводы** simple Gaussian fit would facilitate comparison with the results of other studies, our tailored function allows for the analysis of the data in terms of the Smith model [Robens et al., 2012]. **И** **Изменения** explained the use of this function and the Smith model in our revised Discussion section (Page 12, Lines 2–6).

Место нахождения

Несколько критериев качественной научной статьи

- ✓ оригинальность - новое в предметной области, методах или результатах
- ✓ соответствие существующему знанию и его расширение
научная методология - достоверность и объективность выводов
- ✓ ясность изложения, структурированность материала и качество написания
- ✓ основательная аргументация
- ✓ новизна и уместность ссылок
- ✓ международный /глобальный подход
- ✓ строгое соблюдение редакционных рамок и задач журнала
- ✓ точное название, ключевые слова и хорошо написанное резюме (*summary*).

Процедура подачи статьи

- 
- Подбор издания (научного журнала)
 - Анализ требований издания
 - Первичная оценка материала на соответствие требованиям издания
 - Обработка материала и приведение в соответствие
 - Рецензирование материала (в зависимости от требований издательства)
 - Перевод материала
 - Переговоры с издательством
 - Доработка статьи
 - Публикация статьи/ отказ - подача в другой журнал
